Subject: Update on Uinta Basin FIP

Good Afternoon – I just wanted to give you all an update on the status of our Uinta Basin FIP.

Our draft proposed Uinta Basin FIP has been at OMB since June 22, 2016. OMB completed the initial interagency review on Monday and sent us a summary of interagency comments on July 26th related to the draft proposed rule and Regulatory Impact Analysis (RIA). The comments are substantial (90+ comments) with respect to

Ex. 5 - Deliberative Process

release the rule depending on “how quickly and responsive EPA is in the passback.”

The Regional Uinta Basin Team is currently coordinating with OAQPS and OGC on evaluating the comments and drafting responses. Team is trying to turn around responses in 2 weeks.

Once we send responses to OMB, they will send the responses out to the interagency group and have one or more teleconferences (as well as RLSO passbacks). If EPA and another agency (including OMB) can't resolve an issue at the staff level, it will be elevated up the management chain as appropriate.
